

# THE CITY OF **MIDWEST CITY**

## **Interested in a storm shelter for your home?**

The City of Midwest City is currently being considered to receive a grant for funding to assist residents in the purchase of a residential storm shelter. Under the guidelines, the first 400 residents who respond would be eligible to receive reimbursement of 75% of the cost of a shelter up to a maximum reimbursement amount of \$2,000.

### **Examples:**

- If the cost of the shelter and its installation is \$2,500, the cost to the resident would be \$625 (25%) after reimbursement under the grant of \$1,845 (75%).
- If the cost of the shelter and its installation is \$1,875, the cost to the resident would be \$462.50 (25%) after reimbursement under the grant of \$1,350 (75%).
- If the cost of the shelter and its installation is \$3,000, the cost to the resident would be \$1,000 (33%) after reimbursement under the grant of \$2,000 because the maximum reimbursement for the shelter would be \$2,000 (66%) under the terms of the grant and the resident would have to pay the balance.

If you are a Midwest City resident that would be interested in installing a storm shelter under such a grant program and would like to be considered for this grant, please provide your contact information below:
